 WHAT YOU SAY OUT LOUD (VERBATIM)

Tone: Wall Street Pro

"Hey John, Michael Qin on the institutional syndication desk at Capital Advisory. Look, I'll be direct—I know this call wasn't on your calendar today.

The reason for the outreach is specific: our credit committee is actively restructuring secondary tier debt for mid-market operators in your industry, moving companies out of expensive daily debt positions in your space to cut monthly debit debt service by 40%."

Tactical Execution:

Unhurried, authoritative institutional auditor tone. Frame as balance-sheet protection, not a loan sale.
